HONG KONG BAPTIST UNIVERSITY
SCHOOL OF BUSINESS
FIN7900 Cybersecurity, Privacy and RegTech for Finance
2025/2026
Class Participation, Assignments and Awards

Choose a Deloitte English/tone. Consultancy report. Also need to send it to other people like old people. Non tech people and survey.

2. Individual Assignment (15%)

ASSIGNMENT OVERVIEW
You are a Head of Business Development in a FinTech company developing a "FinTech Mobile App" (digital wallet). You are required to prepare comprehensive 3-hour training materials covering ONE of the emerging topics in FinTech, with an emphasis on business impact, risk mitigation, and practical implementation strategies.

TOPIC SELECTION (Choose ONE)
Topic 1: Data Breaches - Causes, Mitigation & Recent Events
Research and present the causes of data breaches affecting FinTech platforms, mitigation strategies, and recent high-impact incidents. Analyse how breaches impact customer trust, regulatory compliance, and business operations.

Topic 2: Cryptocurrency Exchange Security & Hack Prevention
Investigate past cryptocurrency exchange hacks, identify common vulnerability patterns, and propose comprehensive mitigation strategies. Consider the implications for FinTech platforms offering crypto-related services.

Topic 3: Regulatory Compliance & Cybersecurity Requirements
Analyse the latest policies from Hong Kong regulators (HKMA, SFC, IA) and other relevant authorities. Develop training content to help staff understand and implement new cybersecurity and data privacy requirements.

CORE DELIVERABLES

2.1 Training Materials (3 Hours Duration)
Format Options (can be combined):

1. PowerPoint presentation with animations
2. Interactive video modules
3. Case study worksheets
4. Infographics and visual diagrams
5. Hands-on simulation exercises
6. Real-world scenario discussions

Content Requirements:

1. Executive summary for non-technical managers
2. Clear articulation of business risks and impact
3. Practical mitigation strategies applicable to mobile wallet apps
4. Real-world case studies and recent events
5. Key takeaways and action items
6. Estimated time allocation for each section

2.2 Knowledge Assessment: 30+ Multiple Choice Questions (MCQ)

1. Minimum 30 MCQs covering all training content
2. Difficulty levels: Basic (30%), Intermediate (50%), Advanced (20%)
3. Each question must include:
    A. Clear question statement
    B. 4 answer options (A, B, C, D)
    C. Correct answer with explanation (150-200 words)
    D. Reference to relevant training section
    E. Learning objective alignment

2.3. Project Progress Report

Mandatory submission alongside final deliverables

The progress report demonstrates your research methodology, iterative improvements, and quality assurance processes. This report is essential for demonstrating higher-order thinking and continuous improvement.

Report Structure:

2.3.1 Research Phase (500 words)

A. Sources identified and evaluated
B. Key findings summary
C. Data collection methodology

2.3.2 Content Development Process (500 words)

A. Initial content outline
B. Challenges encountered
C. Solutions implemented
D. Content validation approach

2.3.3 GenAI Integration & Enhancement (750 words)

A. GenAI platforms utilized (ChatGPT, Claude, Gemini, etc.)
B. ◦Specific use cases:
C. ◦MCQ generation and refinement
D. ◦Content structure optimization
E. ◦Scenario development
F. ◦Explanation writing
G. ◦Prompts used (with examples)
H. ◦Quality assurance process for AI-generated content
I. ◦Human review and correction iterations

2.3.4 Real-Person Testing & Feedback (750 words)

A. Testing methodology (minimum 3 rounds with different testers)
B. Tester profiles (role, experience level, feedback focus)
C. Feedback collection method
D. Key findings from each testing round
E. Specific improvements made based on feedback
F. Evidence of iteration (before/after comparisons)

2.3.5. Quality Enhancements (500 words)

A. Clarity improvements
B. Engagement enhancements
C. Accuracy refinements
D. Accessibility considerations
E. Alignment with learning objectives

2.3.6 Reflection & Lessons Learned (300 words)

A. What worked well
B. What could be improved
C. Technology utilization insights
D. Recommendations for future training development

ENHANCED GRADING CRITERIA

Content Quality (35%)

- Accuracy & Research (10%): Well-researched, current information with proper citations
- Business Relevance (10%): Clear connection to FinTech mobile app operations
- Comprehensiveness (8%): Covers all key aspects of chosen topic
- Clarity for Non-Technical Audience (7%): Managers can understand without technical background

Training Material Design (25%)

- Engagement & Presentation (10%): Professional, visually appealing, multimedia integration
- Learning Progression (8%): Logical flow from basic to advanced concepts
- Practical Applicability (7%): Actionable insights and implementation strategies

Assessment Quality (20%)

- MCQ Design (8%): Well-constructed questions with clear learning objectives
- Explanation Quality (7%): Comprehensive, educational answer explanations
- Coverage & Balance (5%): Questions cover all content areas and difficulty levels

Project Progress & Methodology (15%)

- Research Documentation (4%): Clear research process and source evaluation
- GenAI Integration (5%): Thoughtful, documented use of AI tools with quality control
- Real-Person Testing (4%): Evidence of iterative improvement through user feedback
- Reflection & Insights (2%): Demonstrates learning from process

Technology & Creativity (5%) - BONUS POTENTIAL

- Innovative Use of Tools (3%): Beyond standard presentations; interactive elements, simulations
- GenAI Creativity (2%): Creative prompting, novel content generation approaches
- Technical Excellence (2%): Professional production quality, accessibility features

Format: Presentation material could be a combination of PPT, animation, worksheet, case study etc.
Deliverable: Training materials and Q&A's and explanation of answers
Referencing: You are required to cite the references with the APA citation style.

Criteria	
Connection to the topic (10%)	• Makes clear and thoughtful connections between the selected topic of the training materials and the company background.
Depth of training materials (40%)	• Demonstrate further analysis and insight resulting from the selected topic, includes additional references or readings related to the selected topic. • In-depth synthesis of thoughtfully selected materials related to the selected topic. • Use specific and convincing examples to support claims in your writing, making insightful and applicable connections.
Design and organization of the training materials (40%)	• Training plan addresses each performance gap of the business scenario • Plan includes lesson plans and a fully sequenced layout of the training which includes activities, assessments, equipment needs, etc. • Design is professional and presentable to capture and continue to engage the audience. • Sufficient exchanges • between instructor and learners that supports teaching and learning
Structure, spelling and grammatical errors (10%)	• Writing is clear, concise, and well organized with excellent sentence or paragraph construction. • Thoughts are expressed coherently and logically. • No more than three spelling, grammar, or syntax errors per page of writing.
